“What did you say?”

Some of them immediately disagreed.

They weren't going to continue working together anymore but he wanted the entire year's fees and the termination penalty fee?

“Isn't that only normal?” said Li Genhong. “You mean we don't have to follow the terms on the contract anymore?”

“And did the Chinese Chamber of Commerce follow the terms?” One of them laughed coldly. “You said you'd support us, but what did you support us with? You just didn't harass us. Someone stole an important piece of equipment from my factory under your noses, and you didn't do anything!”

He glared at Li Genhong and didn't mince his words. “I'm telling you, all of us know that the Chinese Chamber of Commerce is just like a tiger made from paper! You're useless!”

“Lin Group came overseas and ignored you, yet they still managed to operate as per normal. There's no need for the Chinese Chamber of Commerce to exist anymore!”

“Also, you can forget about taking a single cent from me! Humph!”

With that, they all turned to leave.

PAK!

Li Genhong suddenly picked up his ashtray and flung it onto the floor. The bright and clear sound of it hitting the floor caused a dozen men to rush in from outside, effectively blocking the merchants from leaving the room.

“Either you leave your money here or you leave your lives here. Make your choice!” said Li Genhong sinisterly.

He knew he couldn't keep these people with him anymore.

This damned Jiang Ning!

This damned Lin Group!

In just the span of a few days, Lin Group and that Jiang Ning had made the Li family suffer so much damage.

Right now, he could only try to recoup some losses. Once he was done dealing with Lin Group and Jiang Ning, he was going to teach these idiots a lesson!

The merchants wanted to retaliate but they didn't dare to. They knew how Li Genhong was. If he decided to be vicious, he might really kill them.

They obediently paid up an entire year's fees and the penalty fee of a few million before they could leave.

“Hoho, don't worry, none of you will be able to escape. As long as you're doing business in Las Vegas, you can forget about getting away from

the Chinese Chamber of Commerce.”

Li Genhong’s expression was dark.

He walked out and the corridor was filled with a few dozen men. All of them had a presence that was different from ordinary people.

All these men were martial artists!

Half of them were grandmaster level fighters!

The Li family had paid them a high salary to take them in from the destroyed Qing Sect.

He originally wanted to use these men to snatch away what the other two families in the Chinese Chamber of Commerce had, but from the current situation, dealing with Lin Group and Jiang Ning was more important.

Otherwise, the Li family could forget about walking with their heads high!

“They’re just a merchant from China, so no problem settling them, right?” asked Li Genhong.

“Young Master Li, we know those types of cowards from the mainland!”

The one who spoke was Tang Gong, the assistant leader of the Dragons of Qing Sect. He had followed Zhang Tiankai and they almost made it to the top of the sect.

But after Zhang Tiankai brought the others to kill off Bao Rongdong, he never came back and Qing

Sect was completely destroyed.

Tang Gong had gone to prepare for a celebratory banquet, and so he managed to escape death.

He knew that the Bao family had been destroyed because they had offended a very terrifying character from China.

Jiang Ning!

Nobody in Qing Sect would ever forget this name!

The Li family treated them better than how Qing Sect used to, and their current mission was just to finish off some merchants from the mainland. All those in business were just a bunch of cowards to him!

“Don’t worry, Young Master Li. We’ll definitely get this done for you!”

Li Genhong nodded.

“I’m not worried as long as you guys are in charge.”

These were men that he groomed himself, and not the Li family.

Those highly skilled fighters groomed by the Li family belonged to his father, Li Zhengshang!

He had to build up his own branch of power!

In the future, he wasn’t only going to inherit the Li family from Li Zhengshang. He was also going to make the Li family even more powerful.

The Bao family was gone, but there were still several highly skilled fighters from Qing Sect left behind. As long as he could gather all of them together, the Li family in the future would not be any less than the Bao family. In fact, if the Li family could control the entire Chinese Chamber of Commerce, they would be even more powerful than the Bao family used to be.

“I don’t care what method you use. I want to make sure that every single person from Lin Group disappears, and not a single person is left!” said Li Genhong. “I want them to know what happens if they offend me!”

“Do you understand?”

“Yes, Young Master Li!” Tang Gong and his men responded in unison.

NH

Tang Gong then led his men out.

If they had to launch an attack, then they would wait for night time. Night was the right time for murder!

They had already suppressed their anger for a long time now, ever since the Bao family and Qing Sect were destroyed. They'd never felt so suppressed before.

First they were terribly humiliated by that Jiang Ning, then later, Jiang Ning also destroyed their sect overseas as well!

When he thought about this name, Tang Gong felt anger, but he felt more fear!

It was as if he was a grim reaper, and everyone ought to keep their distance from him.

.....

At Lin Group's overseas office.

Jiang Ning was leisurely drinking tea.

The employees were busying themselves with building up the company and getting into the groove of things. Jiang Ning didn't need to worry about these things.

What he needed to do was to be happy.

After all, he was the boss.

Even Lin Yuzhen was working for him. Tsk.

NH

Suddenly, the lift doors opened and some men came running into the office. They ran even more quickly when they noticed Jiang Ning.

“Mr Jiang! Mr Jiang!”

They didn't expect to find Jiang Ning still sitting around and drinking tea leisurely!

“What great timing, I've just gotten these tea leaves, why don't you try some?”

Jiang Ning poured them a cup each, but none of them could think about drinking tea now.

“Mr Jiang, bad news! You'd...you'd better run!”

“Lock the doors and quickly find somewhere to hide!”

“That's right! The Li family...is going to attack you!”

The men who came dashing into the office were those Chinese merchants who had managed to leave the Chinese Chamber of Commerce and came running here immediately.

They knew what Jiang Ning was doing and they were very touched, and they really hoped Jiang Ning could succeed in doing this.

That way, the Chinese merchants could stand tall overseas as well!

But the Li family was so vicious and wanted to kill Jiang Ning and company!

NH

“Why? What’s going on with the Li family?” Jiang Ning’s expression was still relaxed as he looked at them. “Didn’t you go and terminate your contracts? Why do all of you look like such a mess?”

They explained what happened and their expressions were furious.

“I didn’t expect Li Genhong to have groomed so many highly skilled fighters! All of them are extremely vicious and cruel. I heard that they used to be from Qing Sect!

Everyone knew that Qing Sect used to belong to the Bao family.

And the Bao family was previously the most powerful family in the Chinese Chamber of Commerce.

But then the Bao family suddenly disappeared and left nobody behind.

But those from Qing Sect were still frightening!

How did these highly skilled fighters gain a foothold in Las Vegas?

They had gained it by killing everybody in the way!

“Lin Group has broken the rules set by the Chinese Chamber of Commerce and delivered a slap in the Li family’s face, so Li Genhong won’t let you off for sure. We thought that they might pull a few stunts on you, but we didn’t expect them to actually try to kill you!”

NH

“We didn’t leave and hid behind a wall to hear that they’re going to clean out Lin Group tonight!”
