

Lee Seongbong took a deep breath, then exhaled slowly. He felt like he had just survived a terrible ordeal.

“We’re going to live,” he thought to himself.

The most important thing now was to make sure everyone else in the family behaved themselves. It didn’t matter even if it meant curbing the Lee family’s growth.

As long as Jiang Ning was willing to leave or as long as Jiang Ning shifted his attention away from the Lee family, that was good enough for Lee Seongbong.

Lee Seongbong walked out of the academy, but remembered to thank the person at the door several times before leaving. He had truly displayed a very humble side of himself.

He only went back to being the head of the family after he got back into his car.

“Mr Lee, everything went smoothly?” The butler was relieved to see the expression on Lee Seongbong’s face. After working for Lee Seongbong for many years, the butler knew what this expression meant.

“The Lee family has managed to get through this crisis for the moment.” Lee Seongbong sighed and looked at the butler. “Do you know how powerful this man is?”

The butler shook his head.

“One finger!” Lee Seongbong stuck one finger out. “He can crush the Lee family to pieces with just one finger! The Lee family wouldn’t even get the chance to make a comeback after that!”

The butler’s face paled. If someone else said something like that, the butler would laugh and call him proud and foolish.

But since these words came from Lee Seongbong, the head of the Lee family, then it meant something else altogether.

“Yes, Mr Lee, I understand.”

Lee Seongbong leaned against the car seat and looked like he was exhausted.

He had only drunk two cups of tea with Jiang Ning and said a few sentences, but that had drained him of all his energy.

“Go home,” he said quietly. “Tell everyone to come home for a meeting. There are some things I cannot tell them outright, but I must warn them to be careful!”

The butler started the car and drove back to the house.

Lee Seongbong didn’t delay at all. Once he reached home, he called together all the important members of the Lee family for a meeting.

He definitely couldn’t reveal who Jiang Ning really was.

Jiang Ning was the God of War of the East and that was a supremely high position!

Jiang Ning had never made use of his identity to gain any benefits for himself, so it was obvious that he didn't want anybody to know about this identity of his. If Lee Seongbong revealed this, then he would be creating trouble for Jiang Ning.

The consequences of doing that were very severe!

Lee Seongbong didn't dare to take a nap. He just sat in the main hall and rested while leaning back in his chair.

He closed his eyes slightly as he waited for all the important members of the family to arrive before starting the meeting.

He didn't want to explain too much about what sort of attitude the Lee family should have towards the Extreme Martial Arts Academy and Lin Group, but he would send direct orders out and his family should get the message.

But after a long time, only a few people had turned up. Lee Seongbong's expression began to look nasty.

"What's going on?" he asked in a deep voice. "Where's Lee Seongjae and the rest? Why aren't they here yet?"

"Mr Lee, Lee Seongjae has gone to the office. Apparently he's going to terminate the partnership with Lin Group and he wants to sue Lin Group for

stealing Lee Group's trade secrets," replied one of them.

Lee Seongbong's face immediately paled as he stood up with a start.

"What did you say?!"

"Terminate our partnership with Lin Group? And he wants to sue Lin Group?!"

"That's right. Apparently Lin Group has been able to enter the local market because they've stolen all the secret documents that the marketing department had," continued the same person. "Also, the head of Black Dragon Society is preparing to wreak havoc on the Extreme Martial Arts Academy."

WOONG.

Lee Seongbong's legs felt like jelly and he nearly collapsed onto the floor.

He had nearly kowtowed to Jiang Ning to beg him to let the Lee family off and it hadn't been easy for him to appease Jiang Ning. But now, these idiots of his household were going to ruffle Jiang Ning's feathers again?

These people were going to watch the Lee family burn up in flames!

Lee Seongbong was going insane soon.

He had just pulled the Lee family back to shore, and now Lee Seongjae was going to jump back into the sea!

Were they crazy?!

No, they weren't crazy. They were just too complacent and thought that nobody could threaten them within Seoul or even Korea.

But there was always someone out there greater and more powerful.

"Call all of them back now! Hurry up!" yelled Lee Seongbong.

"All their phones have been switched off." The butler had tried calling them several times but the calls didn't get through. His face started to pale as well.

Earlier in the car, he had seen Lee Seongbong's expression for himself, so he knew the consequences of doing this was certainly very terrifying.

Lee Seongbong was going to have a nervous breakdown soon.

He felt that he was using all the strength he had to just remain standing.

"Men!" Lee Seongbong gave a loud shout. "Gather all the highly skilled fighters of the Lee family!"

Everyone paled. What was Lee Seongbong trying to do?

Was he finally going to make an attack?

Was he going to trample Lin Group underfoot and crush the Extreme Martial Arts Academy?

Lee Seongjae and the rest had taken action and Lee Seongbong finally couldn't stand it anymore?

But Lee Seongbong's words shocked them speechless instead.

"Go and capture Lee Seongjae and the rest! They shall be subject to disciplining when they get back!" roared Lee Seongbong a little hysterically. "These bloody assholes! Do they think they're really undefeatable? Do they really think that the Lee family has nothing to fear? Are they trying to kill us all?!"

"Make sure all of them come back and are severely disciplined! Throw them out of the Lee family and they are never allowed to step inside this place again!"

He led the group himself and didn't dare to delay at all.

If he was a little too late, then he would really be doomed!

If the heavens brought harm to a person, one might survive. But if one brought harm to himself, then it was too bad!

NH

Everyone was shocked. They didn't expect Lee Seongbong to do something like this, and they didn't expect him to be so heartless about it.

Lee Seongjae was his own brother.

He was also someone who had contributed a lot to the Lee family's advancement. But Lee Seongbong just said that he wanted to punish him severely and throw him out of the family.

What was going on?

But nobody dared to ask, because Lee Seongbong's expression was frightening.

They could only follow Lee Seongbong out to see what was going on.

Was there something wrong with Lin Group and that Extreme Martial Arts Academy?

Meanwhile.

Inside Extreme Martial Arts Academy.

The wolves were practicing martial arts in the practicing arena while Fei and Jiang Ning watched them by the side.

"The wolves really have a good understanding of martial arts. It's not easy for ordinary folk to reach this stage," sighed Fei. "Not even the elites from the Black Tiger Team would be able to safely win them."

The Black Tiger Team chose only the most gifted

fighters!

But Jiang Ning remained quiet and didn't seem to want to compliment the wolves.

These people had used their lives in exchange for this.

The responsibility and burden on their shoulders forced them to develop.

This was not an enviable state, because choosing to take this path meant that they would lose many things along the way, but the wolves had never hesitated.

“Brother Ning.” Xiaozhao came running in and made a face when she saw that Fei was drinking tea with Jiang Ning.

She was running about all day and had gotten darker as a result, but her assistant, Fei, was enjoying himself here.

“Lee Group has terminated all our deals and is going to sue Lin Group for stealing their trade secrets.”

All this information had been provided by Lee Cheonsoo and Lin Group had acted based on their own judgment. As for how Lee Group was going to attack Lin Group and try to wriggle out of the contract they had already signed, Lin Group was prepared with answers.

“Have you made all the preparations I told you to?” asked Jiang Ning.

NH

“All done. We’re just waiting for them to sue us, and we’ll countersue,” Xiaozhao nodded. “But since we’ve tried to get our legal team to come over at the last minute, they might not be in time.”
