

Chapter 75

At the Bai family's meeting.

All the members of the Bai family gazed at Yasmine's bloodshot eyes. All of them did not dare to make a sound.

This sudden shocking news had caused a sensation in Qena City.

Recently, the Genuine Care Medical Center had become the most discussed company in the whole of Qena City.

All thanks to the launch of Cherry Blossom. Currently, no companies were able to fight against them.

Having Flavia as its ambassador also made a huge impact.

Everyone had witnessed the potential of the Genuine Care Medical Center.

At this time, if anyone could partner with the Genuine Care Medical Center, they would be able to make a fortune in the medical field in Qena City from now onwards.

If anyone could sign this exclusive contract with the Genuine Care Medical Center to become their only collaborator in terms of the manufacturing work, they would make a lot more money.

It was virtually money that grew on a tree. Anyone who managed to secure this contract would be rolling in wealth.

Yasmine was on her seat. She broke the silence first. "We must take down this contract at all costs. We must make sure we sign this contract with the Genuine Care Medical Center!"

Her words made the room even quieter.

Everyone was convinced that Yasmine was about to lose her mind when it came to making a profit.

Seeing that no one dared to reply to her, Felicity mustered up the courage and rose from her seat. "Grandma, we have to reconsider this matter thoroughly. First of all, many people out there, who are a lot stronger and more powerful than us, are eyeing this chance. We are no match for them at all."

Felicity swallowed her saliva and continued, "Secondly, we've just lost twenty million yuan. Besides, we've been taking in so many orders lately. There's not much cash left for us to use."

"What's more, we just had a conflict with the Genuine Care Medical Centre..."

Felicity verbalized everyone's thought that no one dared to express.

Well, basically, Yasmine was making an unrealizable dream. She was trying to bite off

more than what she could chew.

Yasmine glared at Felicity.

Anxiousness had been consuming Yasmine's entire being for days.

The 20 million yuan had gone down the drain and the Bai family had almost run out of money. Of course, Yasmine understood their current situation.

"I'm going to keep this short. If we can get this offer, we can cover all our previous losses. It's not even an understatement for me to say that we will become one of the most influential families in Qena City."

Yasmine folded her arms in front of her chest. "If we give in, our family will have no chance to resurrect again. Are you going to wait for death to come and grip us? Or, are you going to follow my instruction and put all that's left together to give it a try? We will decide our future!"

Everyone looked at Yasmine and sighed silently.

Recently, the Bai family had been facing different forms of defeats of varying severity. They had indeed at their wits' end.

This offer was too tempting.

At this moment, Steven stood up and roared, "Great! Since nobody dares to do it, I'll go!"

Everyone was stupefied.

This was obviously a task that would not bear any results. Why would Steven, who often only had his eyes on the profits, decide to pick up this task?

Well, in truth, Steven already had a plan in his mind.

The only reason he was willing to accept it was that he knew very well this task would probably yield no profits to him.

If he failed to secure the contract, he would not be blamed. It was reasonable he could not get it. However, by doing this, Yasmine would be able to see his loyalty to the Bai family.

It was going to be a bonus if he managed to sign the contract though. If that really happened, he would be able to have a say in matters pertaining to the Bai family in the future.

Regardless of the result, he could gain something beneficial out of it.

Besides, after the embarrassing incident two days ago, everyone already knew that he was just an amateur 'divine doctor'. At this moment, he needed something desperately to quickly repair his image in Yasmine's mind.

Yasmine nodded with satisfaction when she heard Steven's vehement voice.

However, she couldn't help but feel worried. Suddenly, she darted a glance at a person at a corner and instructed, "Xena, you'll go with

Steven."

Shocked, Xena wanted to refuse Yasmine's request. But when she saw Yasmine's reddened eyes, she parted her lips slightly and agreed to follow Steven.

Yasmine did not even bother to give Felicity a glance at all.

"Act now! This matter is closely related to our family's reputation. I hope that I can entrust you all and count on your wisdom and dignity. Please make sure that it is executed well!" Yasmine stated.

On the other hand, Xena could not help but feel bitter.

She knew it would not do her any good even if she went the extra mile to get the contract.

She went to the Genuine Care Medical Center with Steven.

As soon as they arrived at the clinic, they saw the clinic hall was crowded with people.

They were dressed in suits, carrying a briefcase in their hands. All of them were enthusiastic.

Xena also knew some of these people. All of them were the managers of various pharmaceutical companies in Qena City.

When she talked to them, she found out that everyone had been rejected by the Genuine Care

Medical Center.

The difficulty of this task was obvious.

Steven glimpsed at others who were grumbling and his lips curled into a smirk.

He shouted loudly at a reception staff, "The people of the Genuine Care Medical Center, listen up! You're so arrogant, aren't you? All the most famous pharmaceutical companies of Qena City have sent their representatives here today, yet you refuse to meet us. Now, I suspect that you guys are just trying to make some sort of publicity stunts."

All the people around him saw eye to eye with his statement.

Everyone began to complain, "That's right. Didn't you say that you would choose a company from Qena City? Now that all of us are here, you guys are avoiding to meet us. What tricks are you trying to pull?"

Another man thumped the table with his fist. "Give us an answer now! I've never seen someone so cunning. I've been standing here for more than five hours."

All of a sudden, the clinic was filled with a tumult of grumbles and screaming. They agreed on Steven's remark so much.

The voice of their complaints grew louder.

At that moment, Steven felt so proud of himself.

"Hmph, is this the trick you try to pull, the Genuine Care Medical Center?"

He thought, "Try to avoid us, huh?"

He would love to see if the Genuine Care Medical Center dared to go against all the pharmaceutical companies in Qena City.

The clinic staff member panicked right away. He ran to get his manager.

The crowd immediately complimented Steven, praising him for bringing them together.

However, the clinic staff member came back to them with a reply that angered them more.

The higher management of the Genuine Care Medical Center had made a statement. They did not want to meet any guests on this day.

Once again, Steven yelled indignantly, "What do you mean? Since you guys are the one seeking partnership and collaboration, are you guys looking down on us? It's obvious that you guys are making a fool out of us!"

The clinic staff member was so scared that he didn't dare to say a word.

At this time, Xena exclaimed all of a sudden, "William, why are you here?"

Xena saw William coming into the clinic through the front door.

When Steven saw William, he couldn't help but

mock, "He's a dog of the Genuine Care Medical Center. Of course, he has to guard the gate."

When everyone asked Steven more about it, Steven explained instantaneously, "Hmph, this guy is a dog of the Bai family. Now, he is coming to lick the feet of the people of the Genuine Care Medical Centre."

Everyone in Qena City was aware of William's existence. They knew he was a good-for-nothing.

There was a hint of disdain in everyone's eyes when they heard how Steven commented on William.

However, William did not bother about it. He greeted, "Xena, nice to meet you. Come to my office and take a rest."

Xena was about to say yes, but after thinking for a while, she replied gloomily, "I'd better not go. I'm working."

She was worried that if she agreed to William at this time, the hypocrite next to her, Steven might say that she was a traitor when they were back at home later.

Steven burst out laughing when he saw William getting rejected by Xena. "Wow, what a useless piece of sh*t. How dare you invite others to go to your office? You must have regarded this place as your own home."

The crowd burst into laughter.

However, William patted Xena on the shoulder. The corners of his lips curled up into a playful smirk before he whispered, "Okay, we will see each other later."
