Chapter 19

RILEY

I had no idea today would be so much better than it already was. I woke up with Nadia sprawled out on top of me as if she belonged there like she owned every part of me. 1

Well, she did, she just didn't know it yet. But soon, I wanted her to know she owned every part of me and I would do everything in my

power to make her stay and be mine for eternity.

I smiled despite myself as a flashback of this morning came in. I had to drag

Jenny, my Gamma Female to help me with ironing her clothes.

I had never, for the life of me, used this thing. My clothes were washed and pressed

by an Omega female who comes in twice a week, so this thing wasn't

really part of my routine, but for some reason, I wanted to do it

for her. This female was turning me into her slave without her knowing it.

And then I talked with Darwin this morning and told him about Nadia. And the fucker laughed at me. It reached

him that when Nadia returned to his territory days ago, she was already marked, but he had no idea that it was me that marked her.

And he thought that it was funny that he could now finally understand why I kept visiting his pack when I had no fucking business in there.

Was I that fucking bad?

But all went well in the end. He was happy for me, and he said he would handle the case of Nadia's uncle. That was enough for me.

I could finally move on and accept my female into my pack. And yes, I'm fucking excited that I could invade her mind.

"Why are you smiling?" She asked as she stood in front of my desk, hands on her hips and a scowl written on her face.

Was she angry that I was smiling?

"Why are you scowling?"

"Am I? It's my regular expression." She snapped at me before rolling her eyes as she sat on the chair behind my desk. "Are we doing this or not?"

"What did I do again to piss you off?"

"Nothing."

"Because I'm smiling?"

"Why would I care if you're smiling? If you're thinking of someone who makes you smile, even if I was here already talking to you." She huffed and crossed her legs. "I'm ready to denounce my pack when you're ready."

“Come here.” I raised my hand and motioned for her to come over.

“No.”

“Yes.” My mouth tugged into a smug grin, amused at the stubbornness of my mate.

“Stop that smile, Riley. It’s not working.”

I chuckled before repeating my word. “Come...”

“Why do I always have to come to you? It’s my turn. Come here.” Her voice was slightly raised as she mirrored the movement of my hand when I asked her to come to me.

I didn’t need a second call. I pushed back my chair, making a screeching sound, and stood up, rounding my desk and coming to a halt in front of her.

I crouched down, so we were now almost at eye level with each other.

“I’m here now. Now tell me, what makes you think I was thinking of someone else.”

“I don’t know.”

“Can I?” I looked at her and slowly placed my hands on her knees, and when she nodded, I started tapping my fingers on them before I continued to speak. “I called Darwin this morning.”

“My Alpha?”

My forehead creased at her words. I knew she didn't mean anything, but the way it sounded made me jealous. "You only have one Alpha, Nadia."

It didn't escape my eyes the way her mouth twitched into a smile, but it was gone in seconds. "And then, what's the connection with our conversation?"

I just stared at her, my finger making circles on her knee. I liked it when Nadia was submissive, but I did like this feisty and fiery side of her too. She was just the perfect package.

"One day, I will tell you everything. But for now, it's enough that you know that I was smiling because of you."

"Lies."

"An Alpha never lies, Nadia. At least not me. I could be so many things, but I'm not a liar." I knew this one would come to bite me. I had lied but I was willing to make up for it now.

A grin curved on her lips before she ran her fingers along my knuckles. "You are indeed many things. I have yet to see all sides of you."

"What do you mean?"

"They said Alpha Riley is scary and temperamental. And hard to please."

“And you, what do you think of me?”

“Hmmm... I think you're scared of sleeping alone.” She giggled, and my heart skipped a beat. “And I think you want people to think you're scary and difficult, but in reality...”

“In reality...”

“I think you're nice...”

“Nice? What's exactly nice about me?”

“You took me from my uncle and let me stay here. And you let me sleep in your room, you let me wear your clothes, you ironed my clothes....”

“Don't you think your view of me is a little biased because of what I've shown you for the last 24 hours?”

I inquired, my brow furrowed and a grin tucked into my mouth.

“That's why I have to see that other side of you.”

And my smile was wiped off in an instant.

I gulped as the heat crept up to my ears.

The other side of me, the part that Andrea loathed, I don't think I was ready to let her know that part.

“I don't have another side. What you see is what you get.”

“If you say so. But I would love to know more about you.”

“You will, along the way in this course called life, you will know all about me.” And I was hoping that regardless of what she would find out, she would choose to stay.

I stood up from crouching in front of her and extended my hand for her to hold. “Ready to move into my pack?”

She smiled and clasped her hand with mine, letting me pull her up from her chair. “Yes, Alpha.”

I tugged on her hand and led her towards the other side of my desk, where my chair was. I sat and guided her to sit on my lap, parting her thighs so she could sit down facing me, her thighs caging my legs.

All the while I was trying to position her to straddle me, her eyes were widening, but she didn't complain or struggle to break free from me.

“Is this how you initiate your new pack members?”

“Only when it's as sexy and delectable as you. So it means this is the first time.”

“Are you saying this pack never had any sexy and delectable females?”

“We do. Many. It's just that they were born in this pack and don't need to be.” I didn't finish my words before letting out a hearty laugh

I was enjoying the scowl that formed on her face as her eyes watered. She didn't say a word and just kept staring at me with the same expression

“I was just kidding. This position is just for my Luna.” I told her the last part in a soft voice, my finger brushing the skin of her cheek.

She closed her eyes for a while, probably to blink back the tears threatening to fall. Were my words affecting her?

“Are you ready to renounce Darwin’s Pack?” She nodded her head, biting her bottom lip. “Do you need a guide to do it?”

“No. I think I know what to say.”

“Okay, ” My hands moved to her slim waist, holding them just enough to keep her steady in my lap. “Let me in on your emotions if it pains you when you break the bond.”

She nodded her head before she raised her hands to my shoulder, her eyes boring deep into mine.

“I, Nadia Morrison, denounce the Moon Stone Pack as my pack, and Alpha Darwin Perez as my Alpha.” She flinched as her hands flew to her chest, clutching her blouse as pain flashed in her eyes. My hands immediately moved to her arms to keep her from falling off my lap, but it only took a second or two before a smile curled on her lips. 1

“Done.” She said it in almost a whisper.

“Are you okay?” I asked as I brushed my palms against the skin of her arms.

She nodded. “I’m ready for your pack.”

“You can start now.”

“Don’t you need a dagger or something to cut off your palm and a cup for the blood?”

“You can drink it directly from me.”

“What do you mean? I can bite your palm?”

“Yes, or anywhere. My wrist too, or my arm, or my lips.”

I answered

her as I tucked a loose strand of her hair at the back of her ear.” Anywhere you want to draw blood.” 3

She gulped before her eyes swirled black as her focus shifted to my neck.

Fuck! My heart thudded loudly at the thought that crossed my mind, but I tried to shove it off. I didn’t want to be disappointed, but if she wanted to, I would let her.

“Anywhere?” She repeated as she licked her lips, her eyes returning to normal.

“I mean, anywhere.”

She didn’t say anything more, but she wiggled her ass slightly to put herself in a more comfortable position as her gaze fell on mine. Her actions made my dick come to life, but I tried to ignore it, trying to focus my whole attention on her.

“I, Nadia Morrison, pledge my allegiance to the Silver Moon Pack as my own pack and pledge my loyalty to Alpha Riley Adams as my Alpha.”

I smiled as I heard my name leave her lips. My hand cupped her neck, my thumb brushing against her cheek as I opened my mouth to speak, too eager to accept her into my pack.

“I, Alpha Riley Adams, accept you, Nadia Morrison, as a member of my pack and the future Luna of the Silver Moon Pack. And I vowed to protect you, with the best of my capability, even with my life.”

I let out the breath I was holding as my eyes followed her gaze. I wasn't even sure if she heard my words because she was looking at my neck with hungry eyes.

She swallowed hard before parting her lips, letting her fangs slowly erupt from her gums.

I smiled before tilting my head to the side, giving her free access while my heart was leaping out of my chest.

Accepting her in my pack was something I looked forward to, but having her mark me out of her own free will was the biggest treat

I closed my eyes in anticipation as I felt her body moving closer until her lips brushed against the sensitive, soft spot in my neck.

My hard dick started to go into another round of rage. My fucking orgasm was building up as her fangs latched into my soft spot, piercing and digging deeper into my skin. Wanton moans escaped her throat while her hips began moving, grinding and rubbing her core into my erection.

I felt a pack bond open between us at the same time both our emotions surged in as we complete the mate bond. And then it happened all of a sudden, a pack link opened.

I heard gasps from several members before I was able to shut down the link connecting both of us to our pack.

Fuck! I lost control and I almost let my whole pack connect to our minds, giving them a free show of what was happening between

It was enough to kill my raging orgasm from building up but I let my temptress mate have her way with me. She was still not done sucking and licking every part of the mark she created on my soft spot as she kept grinding her hips.

My hand traveled to the nape of her neck, cupping it as I tugged her hair. "Nadia..."

"Hmmm..." She moaned in response, and her suckling just became louder. "We still need to go to the center. If you get too wet... Your pants will..."

She suddenly pulled away from my neck, her eyes swirling black slowly returning to normal as she looked at me with a flabbergasted expression. Her lips had a smear of blood and she looked so fucking sexy that I ate my own words.

I pressed her neck closer to me and captured her mouth, tasting my own blood before biting her bottom lip hard, drawing blood from her, mixing our blood together as we shared a hungry and passionate kiss.

Nadia was awakening a part of me that I didn't know I had. I've never had a stronger desire for any female than I did for her.

I wanted to worship her and give her everything she needed just to have a guarantee that I would have her in my life. And I was hell-bent on doing just that.
